

**COMMON MODE CHOKE FOR ADSL AND VDSL**

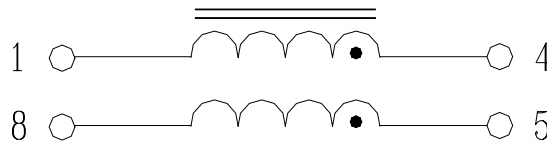

**P/N: BCM-4003 DATA SHEET**

**Feature**

- For use in XDSL interfaces.
- Effective reduction of C.M noise caused by AM broadcast or ham radio.
- Isolation 1500 Vrms Line to Line.
- Operating temperature : -0°C to 85°C.
- Storage temperature range: -25°C to +125°C.

Electrical Specifications@25°C					
Part Number	Turns Ratio	Common Mode Attenuation(dB Typ)			Isolation Voltage (Vrms)
		500KHz	1MHz	10MHz	
BCM-4003	1:1	-45	-49	-35	1500
